- Check your balances | *Manage your money with fewer mistakes.*
- Transfer funds between your accounts | *Faster and easier.*
- Initiate a stop payment
- Use Money Management features to balance your budget, track your expenditures and manage your cash
- Send messages to the bank at any hour
- Open a new account
- *And many more features!*

Can I 'mobilize' my business too?

We offer the same conveniences to small business operators as in our personal online and mobile banking platforms. Learn about Business Banking by scanning the QR code below or by visiting our website at bankfnbt.com/business. Our business banking services, including mobile can add value to your operations. Fees apply. Ask your banker for details.

Convenience

Chances are, your smartphone has become a powerful tool to organize your life, stay informed on critical issues, snap pictures anywhere, consume media on the go, and lots of other conveniences. If you aren't using your phone for *banking*, we encourage you to give it a go!

Download **FNBT Mobile** from the App Store or Google Play. Use the same login credentials that you currently use for *Personal Online Banking* at FNBT. If you don't use online banking yet, it is easy because we've put the simple application right there in the mobile app. See the "Sign up" button on the login screen. If you have any trouble, we want to hear about it.

Deposit your checks from home

If you have a consumer checking account, you can deposit your check *without fees* from home or anywhere. Of course this service has terms and conditions. Please ask your banker for more information.

The cost is free

Both personal online banking and FNBT Mobile are *free*. To activate FNBT Mobile, you'll need to sign up for our *personal online banking service*. You can do this on your desktop at bankFNBT.com (click "login," then "apply now.") Your mobile experience will be an extension of your online experience. They work together. If you change your password in either one, it is changed for both.

Both Online Banking and Mobile Banking are free to FNBT customers who are in consumer accounts. Download the app for free, and sign up for Online Banking for free too. Naturally fees will apply for overdrafts or other services, but these basic services (online and mobile) are free to consumer account holders.
